MONESSEN PUBLIC SCHOOLS WILL OPEN NEXT MONDAY.

Several Teachers Needed but Vacancies will be Filled To-Night at Regular Meeting of School Board.

Next Monday morning, September 3rd, the Monessen public schools will open and Superintendent, principals and teachers will register for another year's hard work. The tolling of the school bell will be a signal for hundreds of little girls and boys to schuffle into the school room and be assigned their respective places and assume their arduous task after several months of rest, recreation and sport. Prof. Himelick has been working hard since he returned from his vacation in order to have the school work start off smoothly and satisfactorily. There are two or three vacancies yet for teachers, but a sufficient number of applications are on file and at the school board meeting tonight the required number of teachers will be elected and the proper assignment made.

The following is the outline for the year.

INSTRUCTORS

Superintendent, R. W. Himelick,
Principal, John H. Adams,
Assistant Principal, Sara Etta Johnston,
W. L. Rutherford, Anna Kingsley
Estelle M. Ripple, C. J. Tannehill,
Physics.

COURSES

The usual courses will be given this year. All those who are preparing to enter college should take the classical course. Others may select a part of their work. There are certain prescribed lines that all must take. Below is given a complete schedule of the classes that will be organized at the opening of the term on September 4, 1906

Other courses will be given when there are five or more students who wish to take the work.

FRESHMAN.

Beginning Section—Latin, Algebra, Physical Geography, English.

Second Section—Latin, Algebra, Physical Geography, English.

SOPHOMORE

Section I—English, Physics, Algebra Greek History, German.

Section II—English, Physics, Geometry, Greek History, German.

JUNIOR

Geometry, English, French History, Latin or German.

SENIOR

Latin, Solid Geometry, English, Chemistry

Students from the country or from neighboring towns who contemplate entering this fall will find it to their interest to write for particulars concerning the work.

We extend a special invitation to those who have completed a two or three years course in other places to come and complete the work here. By so doing you will be prepared to enter most of the colleges and universities We already have students who are preparing for the leading universities of the country.

THE TEACHERS.

The teachers are all persons of broad experience. They come from the best Normal schools and colleges of this and other states. Each one is especially well prepared to do the work which has been assigned. Some of them are taking special work during the summer along the line they expect to teach the coming year. So the students who enter the school will not be required to do work under poorly prepared or inexperienced teachers.

EQUIPMENT.

The general equipment is sufficient to enable the teachers to illustrate each step of the work where it is necessary.

The Physical laboratory is probably the best found in any High school in the valley. Each student is required to work out his own problems.

Besides the apparatus necessary to perform the required experiments there are many special places that are interesting and instructive. There is a complete "Wireless Telegraph" outfit from which excellent results have been obtained. There is also an X-ray machine and many others with which the students in the Science department will have an opportunity to become familiar.

The classical department is supplied with the very best maps and atlases.

OBJECT.

The object of the High school is to give each boy and girl a mastery of self. This will enable them to perform the duties that fall upon them later in a way that will be more satisfactory to themselves and to those who employ them.

Students are treated as men and women as long as they show by their actions that they should be thus treated. They are placed upon their honor at all times. Every freedom is given that is in any way consistant with the best interests of the school. In fact the whole object on the part of the teachers is to encourage self government.

Any person who is interested in the work should call before the opening of the school and see for themselves. Students are not invited because of any personal concern but because of a general interest in the cause of higher education

GRADUATION.

Students are graduated when they have completed the prescribed work and enough along other lines to make thirty-two credits. A credit consists of four and one half month's work in any branch.

There is no promotion by years but by subject. If a student should fail in one subject it has nothing to do with his standing in any other subject.

LOCAL OFFICIALS OF PGH. STEEL WILL ENTERTAIN CITY OFFICIALS

Annual Outing will Take Place Next Saturday When City Officers will Come to Monessen in Special Train.

Superintendent George Nash of the Monessen plant of the Pittsburg Steel Company is making great preparations for the entertainment of the city officials and office force here next Saturday.

Once each year the Pittsburghers are invited to Monessen to view the local plant and to participate in a days rest, recreation and social intercourse and the great event has proven to be so enjoyable and so beneficial that it is looked forward to with much interest not only by those directly connected with the Pittsburg Steel Company but by all who have ever had the good fortune to be present. The affair is strictly informal and Mr. Nash very generously extends an invitation to all friends of the Pittsburg Steel Company to be present and help make the day an enjoyable one.

The city office force will leave Pittsburg on a special train at 10 o'clock city time arriving in Monessen about one hour later. The guests will be escorted to the local office where a lunch will be served. In the afternoon the usual diamond contest at Athletic Park will be the leading feature. The game will be between the local office and and the city office force and everybody will be made welcome at the grounds to witness the contest. There will be no admission and every fellow can be his own judge as to the merits of the game.

It will be a genuine outing and it goes without saying that a large crowd will be present and everybody will have a good time.

Prominent Webster Physician and Family Leave for Indian Territory Monday,

Dr. W. H. Cowan, of Webster, will move his family the first of next week to Okmulgee, Indian Territory, where they will make their future home. Dr. Cowan spent several weeks there this spring and was so well taken with the country and climate, which is exceptionally fine, that after a great deal of consideration he decided to move. Dr. Cowan has built up quite a flourishing practice since being in Webster and he is held in the highest esteem by all of his numerous patients. Both he and Mrs. Cowan are very much liked by their large circle of friends and all will be extremely sorry to see them leave.

This paper joins in wishing them abundant success and happiness in their new home.

He Did'nt Pawn it.

Jim Wint of this place made complaint to the local police department today, that a man named John Emlong, of Belle Vernon, to whom he had given his watch to be pawned, had skipped with the timepiece. The Belle Vernon police were notified and promised to look for Emlong.

THE CIGARETTE

The cigarette problem is one that is causing widespread comment at this moment and rightly so. The laws governing the sale of the venomous article seems sufficiently stringent to at least stop children from poisoning their little systems and blighting their manly prospects, but there is something wrong somewhere and it must be with the merchants, for daily little boys from six years up can be seen with a cigarette between their lips and quite frequently little crowds will congregate in some secluded spot and have a private "smoker."

The law plainly says: "That if any person or persons shall furnish cigarettes or cigarette papers by gift, sale, or otherwise to any person under 21 years of age he or she shall be guilty of a misdemeanor and shall upon conviction thereof be sentenced to pay a fine of not more than $300 or less than $100."

If the parents of these children cared one iota for them or felt the least responsibility as to how they are brought up it would not be a hard matter to find out who sells the cigarettes and administer the proper punishment. No adult should smoke cigarettes and much less a child.

SINCE Wireton was raided and several of "the girls" sent over and Mayor Shutterly threatened the ball and chain there hasn't been many disorderly brawls. It pays to give a salty dose occasionally.

IF the home newspaper gives the home merchant the preference, why don't the home merchant give the home newspaper the preference. I'ts a poor rule that wont work both ways.

England's Youngest Bride.

The youngest bride who was ever led to the altar in England, so far as we can discover, was little Catherine Apsley, who had only seen four summers when she became the wife of the first Earl Bathurst, who was exactly double her age. The tiny ring worn by Catherine on this occasion, over two centuries ago, is still preserved Lord Bathurst survived to see the eighty-third anniversary of his wedding day, while his lady was a wife for seventy-six years.—London Chronicle.

Objection Removed.

"You objected to Jack because he had to work for a living, didn't you, mamma?"

"Yes, my dear. He doesn't belong to our class."

"Well, it's all right now. May he call tonight?"

"Has some one left him a fortune?"

"No, but he's lost his job."—Cleveland Leader.

Wanted Some of the Same.

A little boy was taken by his father into a cafe for dinner As they were eating their dessert the father handed the waiter a bill, which that worthy carried to the cashier's desk, returning presently with a little pile of change on a silver plate. Robby's eyes grew bright. "Oh, papa," he said "I'd like a plate of that too!" New York Herald

Resin.

The resin of the shoemaker and fiddler is obtained from different species of the fir tree—as the Scots fir, the larch and the balsam fir of Canada. It is well known that a resinous juice exudes from these trees, which hardens into solid tears. The clear juice itself before it has dried up by coming to the surface, is known in commerce as turpentine and is in the main composed of oil of turpentine and resin When the juice is distilled, the oil comes over, and the resin remains behind When the distillation is carried on to dryness common resin is formed, but when water is mixed with it while yet fluid the resulting mass is the variety called yellow resin, which is more preferred for most purposes because it is more ductile than the former, owing probably to its containing some oil

G. B. Burhans Testifies after four Years.

G. B Burham of Carlisle Center, N. Y., writes "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I'm glad to say that I have never had a return of any of those symptons during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." Sold by Kirks Drug Store.

War Against Consumption.

All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. The genuine is in a yellow package. Sold by Kirks Drug Store

Was In Poor Health for Years.

Ira W. Kelley of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refuse substitutes. Sold by Kirks Drug Store.

If you will make inquiry it will be a a revelation to you how many succumb to kidney or bladder trouble in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure It never disappoints.

During the summer kidney irregularities are often cause by excessive drinking or being overheated: Attend to the kidneys at once by using Foley's Kidney Cure. Sold by Kirks Drug Store.

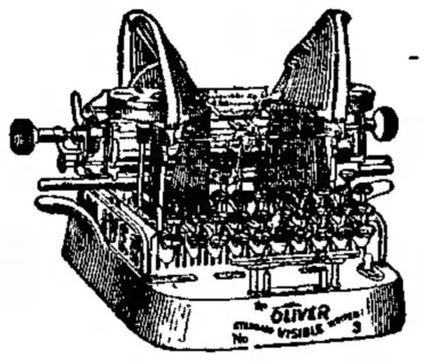
THIS TYPEWRITER DELIVERS THE GOODS

It's the Oliver—the Standard Visible Writer.

The Oliver Typewriter is just like an athlete stripped for a race



It is free from unnecessary multiplicity of wires and springs

No net work of flimsy keys to get tied into hard knots

The nimble fingered stenographer can put talk into type with this machine just as rapidly as she takes your dictation.

For no matter how swiftly she writes, she can see just what she's doing

The keyboard is so wonderfully responsive to the touch of the finger tips that speed comes without effort.

The factors that make for speed are its visible writing, its light, elastic key-touch, and it's all 'round simplicity It has the fewest possible wearing points, and it prints with a downward stroke

The OLIVER Typewriter

THE STANDARD VISIBLE WRITER

is a flawless piece of mechanism, combining the strength of tested steel with the perfect adjustment of the works of a watch. You can use an Oliver a life time and the type will not lose alignment

It never suffers from nervous prostration; requires only a little oil and plenty of exercise to keep it at the highest point of efficiency.

Couldn't Lift Ten Pounds.

Doan's Kidney Pills Brought Strength and Health to the Sufferer, Making Him Feel Twenty-Five Years Younger.

Sick kidneys cause a weak, lame or aching back, and a weak back makes a weak man. Can't be well and strong until the kidneys are cured. Treat them with Doan's Kidney Pills. Here's the testimony of one man cured.

J. B. CORTON.

J. B. Corton, farmer and lumberman, of Deppe, N. C., says "I suffered for years with my back. It was so bad that I could not walk any distance nor even ride in easy buggy. I do not believe I could have raised ten pounds of weight from the ground, the pain was so severe. This was my condition when I began using Doan's Kidney Pills. They quickly relieved me and now I am never troubled as I was. My back is strong and I can walk or ride a long distance and feel just as strong as I did twenty-five years ago. I think so much of Doan's Kidney Pills that I have given a supply of the remedy to some of my neighbors and they have also found good results. If you can sift anything from this rambling note that will be of any service to you, or to any one suffering from kidney trouble, you are at liberty to do so."

A FREE TRIAL of this great kidney medicine which cured Mr. Corton will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers: price, fifty cents per box.

It is always well to have a box of salve in the house. Sunburn, cuts, bruises, piles and boils yield to DeWitt's Witch Hazel Salve. Should keep a box on hand at all times to provide for emergencies. WEBSTER NOTES

The colored ball which was held here last evening passed off very smoothly. Considerable difficulty was experienced in securing music for the occasion but this obstacle was finally overcome. The merrymaking was kept up until a late hour.

D. S. Sarber has returned from a week's stay at Atlantic City.

Raymond Taylor is suffering with a painfully burned finger.

Dr. J. P. Frye was in Monessen yesterday on business.

George Felmeth of West Elizabeth spent the past two days in town with friends.

Will Gries who was taken to the Mercy Hospital Pittsburg, Friday, suffering from injuries sustained in an accident at the Budd mines is recovering rapidly.

Mrs. Blanche Cummins of Pittsburg who has spent the past two weeks the guest of Mrs. Dan Pierce, returned home today.

Messers Miller Allen and O. C. Thompson were in Belle Vernon last night visiting the Knights of Malta Commandery of that place.

Albert Noll of Pittsburg, was registered at the Union Hotel yesterday.

J. W. Jenkins Jr., and J. Lebowitz, of Pittsburg were business visitors in town yesterday.

Mike Sako of Milesville spent yesterday in town with friends.

The Budd mines are closed down today on account of a cavein. The entire day will probably be required to get things in shape for resuming work.

WAS BURRIED TODAY.

Prominent Rostrover Township Man Who was Found Dead in Bed Laid to Rest.

The funeral of A. L. Heatherington, one of the most well known and respected citizens of Rostraver township, took place today, interment being made in Round Hill cemetery.

Mr. Heatherington's death was a most sudden one he having been found dead in bed by his family. He had been in poor health for some time, but was not considered in a dangerous condition.

Deceased is survived by a widow and two sons, one of which resides at home, while the other makes his home in South Dakota.

Excursion was a Success.

The boat excursion run by the St Charles Roman Catholic church of Donora yesterday was entire success. The boat was fairly packed with the excursionists who represented all of the towns along the river. The boat left Donora about 9 a. m making the trip to Lock 5, returning to Lock 3 and arriving in Donora about 9 o'clock. The affair was quite a financial success.

Christian S. S. and Church Picnic.

The Sunday school of the Christian church, will hold its annual picnic on Thursday the 30th inst., at Lynn's Grove The church and its friends are also included and it is hoped that as many of them will go as possible.

The school will go in a special car, and the fare will be 10c for the round trip.

The car will stop at 2d street, but start will be made from Eighth street, and all going must be at the church not later than 9:15 a. m.

JAS. B. SMITH, Pastor.

The Art of Idling.

Cultivate the art of idling There is no doubt that to be able to idle at will is a most valuable gift and one which is becoming rarer every day The art of loating is not properly understood by the majority of people. Much has been written on the subject Stevenson dealt with it in an essay; Mr Kenneth Grahame touched on it in "Pagan Papers," and Mr. Barry Pain has some illuminating remarks on the subject in his Canadian canoe book There is a subtle difference between the views of these experts. Mr. Grahame advocated absolute idleness Mr. Pain pointed out, with more truth, that the great art of loating was to do the easiest thing and that sometimes it is easier to work than to be idle. This is the secret of the whole matter. The superficial idler thinks it his duty to be idle on every occasion The man who has studied the subject knows that this is an entirely erroneous view. There are times when we feel that we must be up and doing. If we sternly repress this inclination our peace is disturbed. The really scientific idler is the man who can idle at will.—London Chronicle.
